

CHARLIE
— P.A. SERVICES —

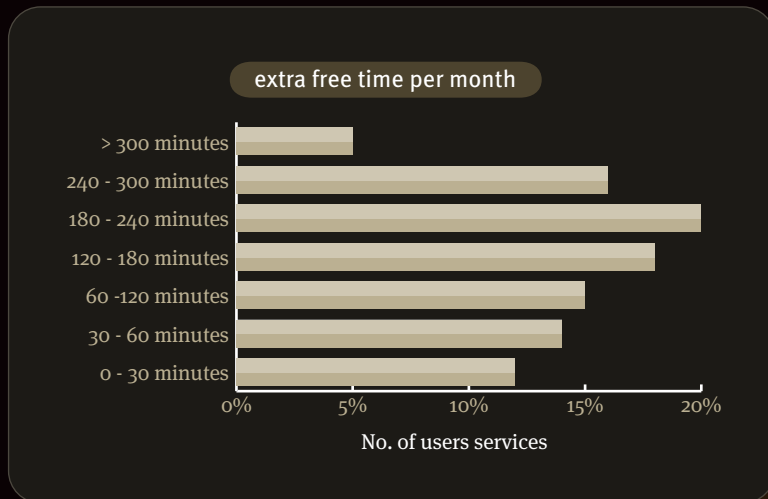

Optimizing Life & Performance

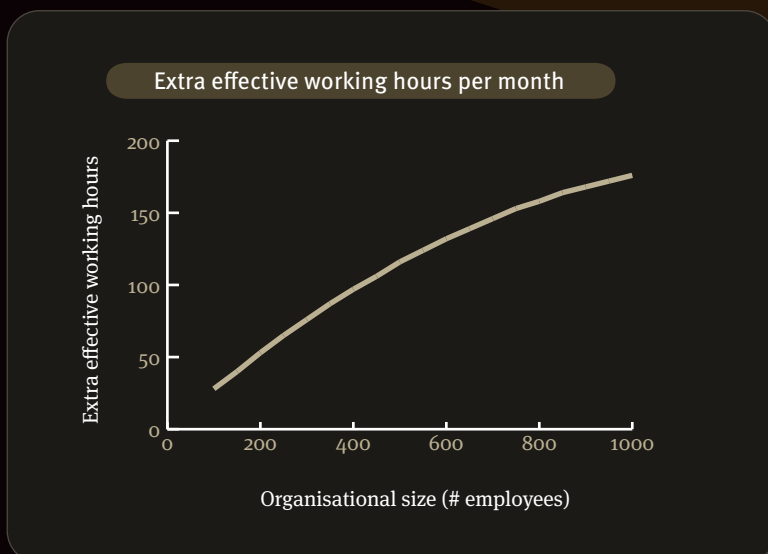

Improvement Work-Life Balance

Since 1998 Charlie P.A. Services has been the undeniable market leader in supplying time saving services at work. With a diverse array of services Charlie is able to remove all your annoying and time consuming but necessary tasks. By using our services employees are able to create a large amount of free time, comparable to an extra Saturday morning every month. In addition, our services relieve stress from household chores and create piece of mind, a valuable byproduct to achieve an improved Work-Life Balance.

Increases Work Efficiency

Through research of our clients it has become apparent that our Basic P.A. Services Package produces an average of 25 extra effective work hours per month per 100 employees. Employees will no longer have the need to arrive late or leave early because they have to pass by a shop. They will not spend an unnecessary large amount of time searching for the right supplier on the internet and over the phone. Thus, less costly time will be wasted and employees can properly focus on their work. Our services therefore have an immediate positive effect on the productivity of the workforce. Numerous organizations that are fully aware of the cost and profit of 1 hour's work, such as companies that charge by the hour, are in addition to other reasons, our clients.

Highest Quality

Charlie works with best and most renowned companies in the Netherlands, where only the highest quality is good enough. It is not for nothing that our client network consists of senior managers and lawyers, ministers, state secretaries, and ambassadors.

Tariffs Services

Although we supply the highest quality, we deliver at competitive prices. Thereby we take into account that employers want our services to be obtainable for all their employees.
